CLEANING ON THE MOVE: THE HIGH SUCTION COMPACT CLASS.

SW 50IS

- Well equipped for basic cleaning, initial construction cleaning or use in workshops: wet & dry vacuum cleaners with compact vacuum tanks made of chromium steel (S).
- Robust and sturdy design: secure positioning and convenient transport every time.
- Extensive range of professional accessories: a roller-guided wet suction tool as well as additional accessories for dry and wet cleaning are series-standard and included in delivery. A large assortment of special extras is also available.
- Hygienic dry cleaning: the specially pre-treated sanifilter cloth bag – series-standard for the SW 50IS wet and dry vacuum cleaners – prevents the growth of bacteria, viruses, fungi (yeasts and mould) and microparasites that have been vacuumed up.
- The single-motor expert for longer operating times without emptying the tank: 62-litre capacity for medium to large surfaces.
- Easy to empty: the drain hose situated at the lowest point of the tank allows the dirty water to be emptied completely and conveniently.
